Guillermo Sandoval

Guillermo is a Senior Policy Advisor at the Ontario Ministry of Health and Long-Term Care. His role is to identify and define emergent health system problems across sectors to effectively support strategic directions for the Ontario’s health care system. Previously, Guillermo worked at the Hospital Report Research Collaborative based at the University of Toronto as a researcher, and in an investment brokerage firm in Santiago de Chile as a financial and investment advisor.

Guillermo has a Bachelor of Science in engineering, an MBA, and currently he is completing his doctoral degree in health services research at the University of Toronto Department of Health Policy, Management, and Evaluation. His thesis is looking at the value of advanced imaging technology in the context of acute in-patient care. Guillermo has published in Canadian, American, and European peer-reviewed journals, and has been an invited reviewer for the British Journal of Cancer. Among his latest publications is that entitled ‘CEO Compensation and Hospital Financial Performance’ which was published in Medical Care Research and Review, and used 8 years of Ontario hospitals data.
